### **There are two themes for 2025:**

**An Elсах Still Life** - This should not be interpreted as necessarily an interior shot, though it certainly could be. It's definitely an opportunity to arrange and create your own sense of what an Elсах still life might be.

**The Majesty of Trees** - We love our trees and find their presence both inspiring and nurturing. They add grace to our homes and create a beautiful place to live! We know you'll find a way to capture their magnificence!

**Adjustments to the 2025 competition...** Besides the new themes, we decided that there should not be a limit to the number of entries submitted. \$15 covers three images, as many times as you like. We also added a Creative Youth Award, for those 8-18 years of age.

**Look for submission materials in early July, on our website, but don't wait until then to start taking pictures!** [EscapetoElsah.com](http://EscapetoElsah.com) & [historicelsah.org/photocomp/](http://historicelsah.org/photocomp/) **Hope to see you in Elсах!**
